PHASMOPHOBIAR

A ghost hunting game built for augmented reality

JENNIFER WAGNER · SIMON WINTER · GYURI LEE · FANGXING LIU

One hidden ghost, zero traditional input

You are a Ghost hunter in your own house and try your best to survive.

You gather evidence, identify the ghost type, and capture it before it disappears.

You scan your real room, a ghost is hidden in plain sight.

You place printed marker cards on real surfaces, each card spawns a 3D ghost-hunting tool at that exact spot.

Device movement

6-DoF camera pose is the controller; for gathering evidence, revealing and capturing

Printed marker cards

Physical placement of virtual ghost-hunting tools via image tracking

Tablet as Ghost Hunting Tool

Scanner modes, journal, ghost-type confirmation

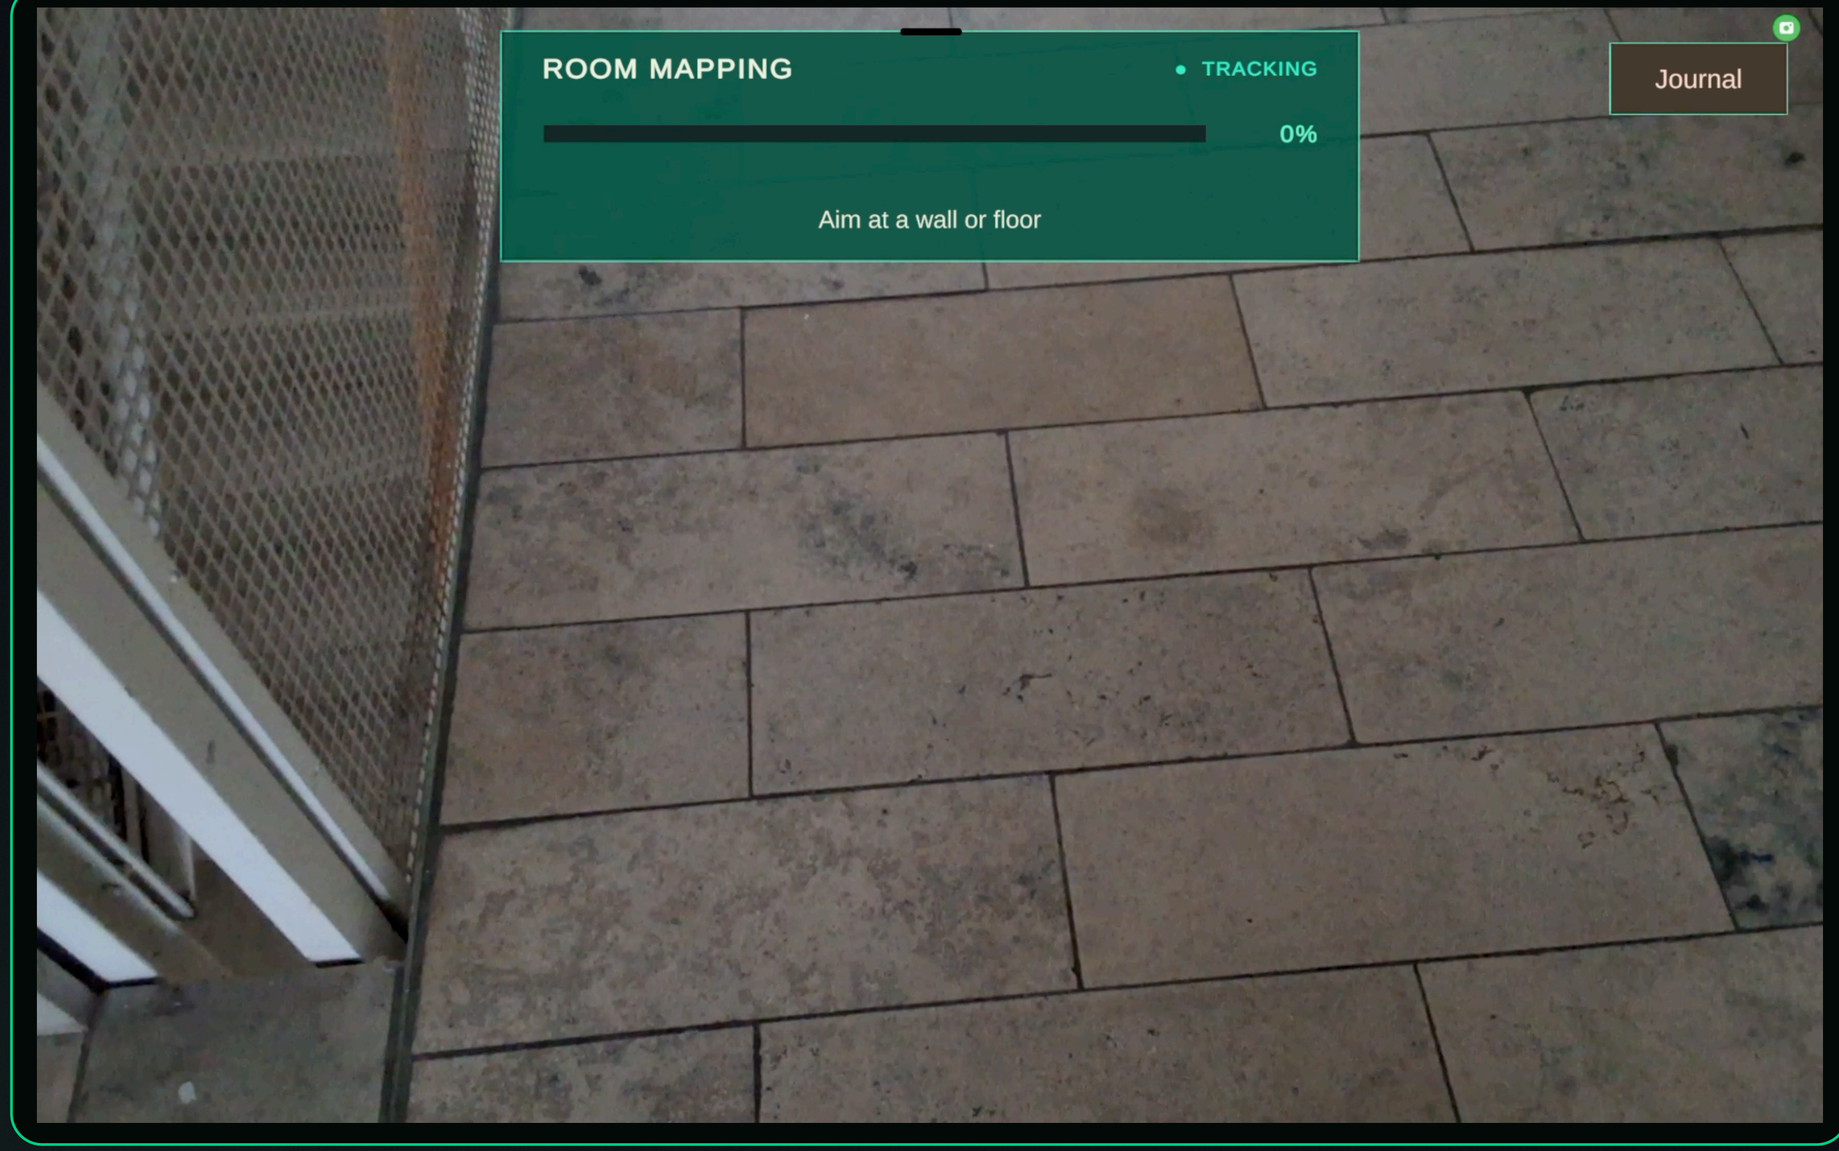
Gameplay Loop

1. Scan the room until tracking is stable
2. Investigate: Move and collect evidence with AR Marker & Scanner tools
3. Identify the ghost in the journal
4. Capture the ghost
5. Get your result

2.5 GET JUMPSCARED

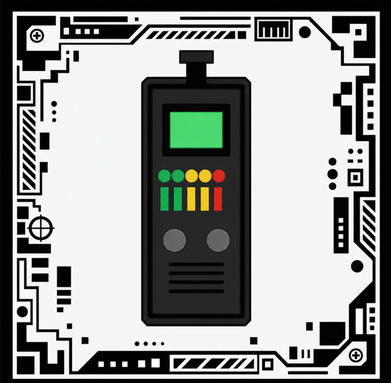
1

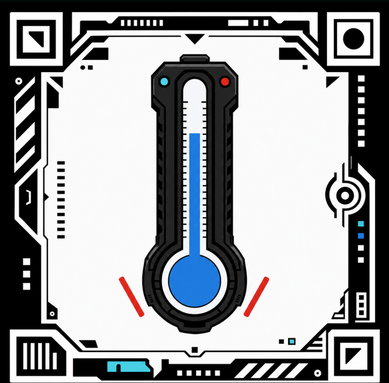
Scan the room until tracking is stable



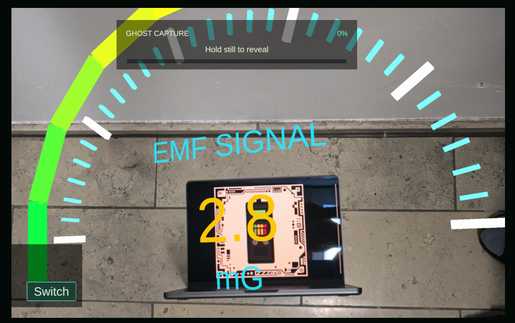
2 Investigate: Move and collect evidence with AR Marker & Scanner tools

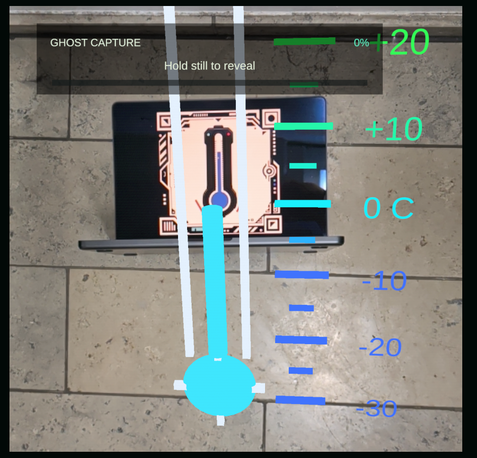
2 Investigate: Move and collect evidence with AR Marker & Scanner tools





Better screenshots pls





3 Identify the ghost in the journal

Restart

GHOST JOURNAL

CASE FILE // ACTIVE HAUNTING

Close

Evidence

- [ ] EMF Spike
- [ ] Freezing Temperature
- [X] Spectral Trace
- [ ] Spirit Response

INVESTIGATION GUIDE

1 FIND THE EVIDENCE
Place marker tools and follow their readings.

2 IDENTIFY THE GHOST
Mark evidence, consult the field reference, and select a ghost below.

3 SUBMIT YOUR CHOICE
Lock in the ghost type before capture.

4 CAPTURE IT
Close the journal, find the ghost, and keep it centered until capture reaches 100%.

Investigation

Reference

Cases

Selected: none

Wanderer

~~Shy Ghost~~

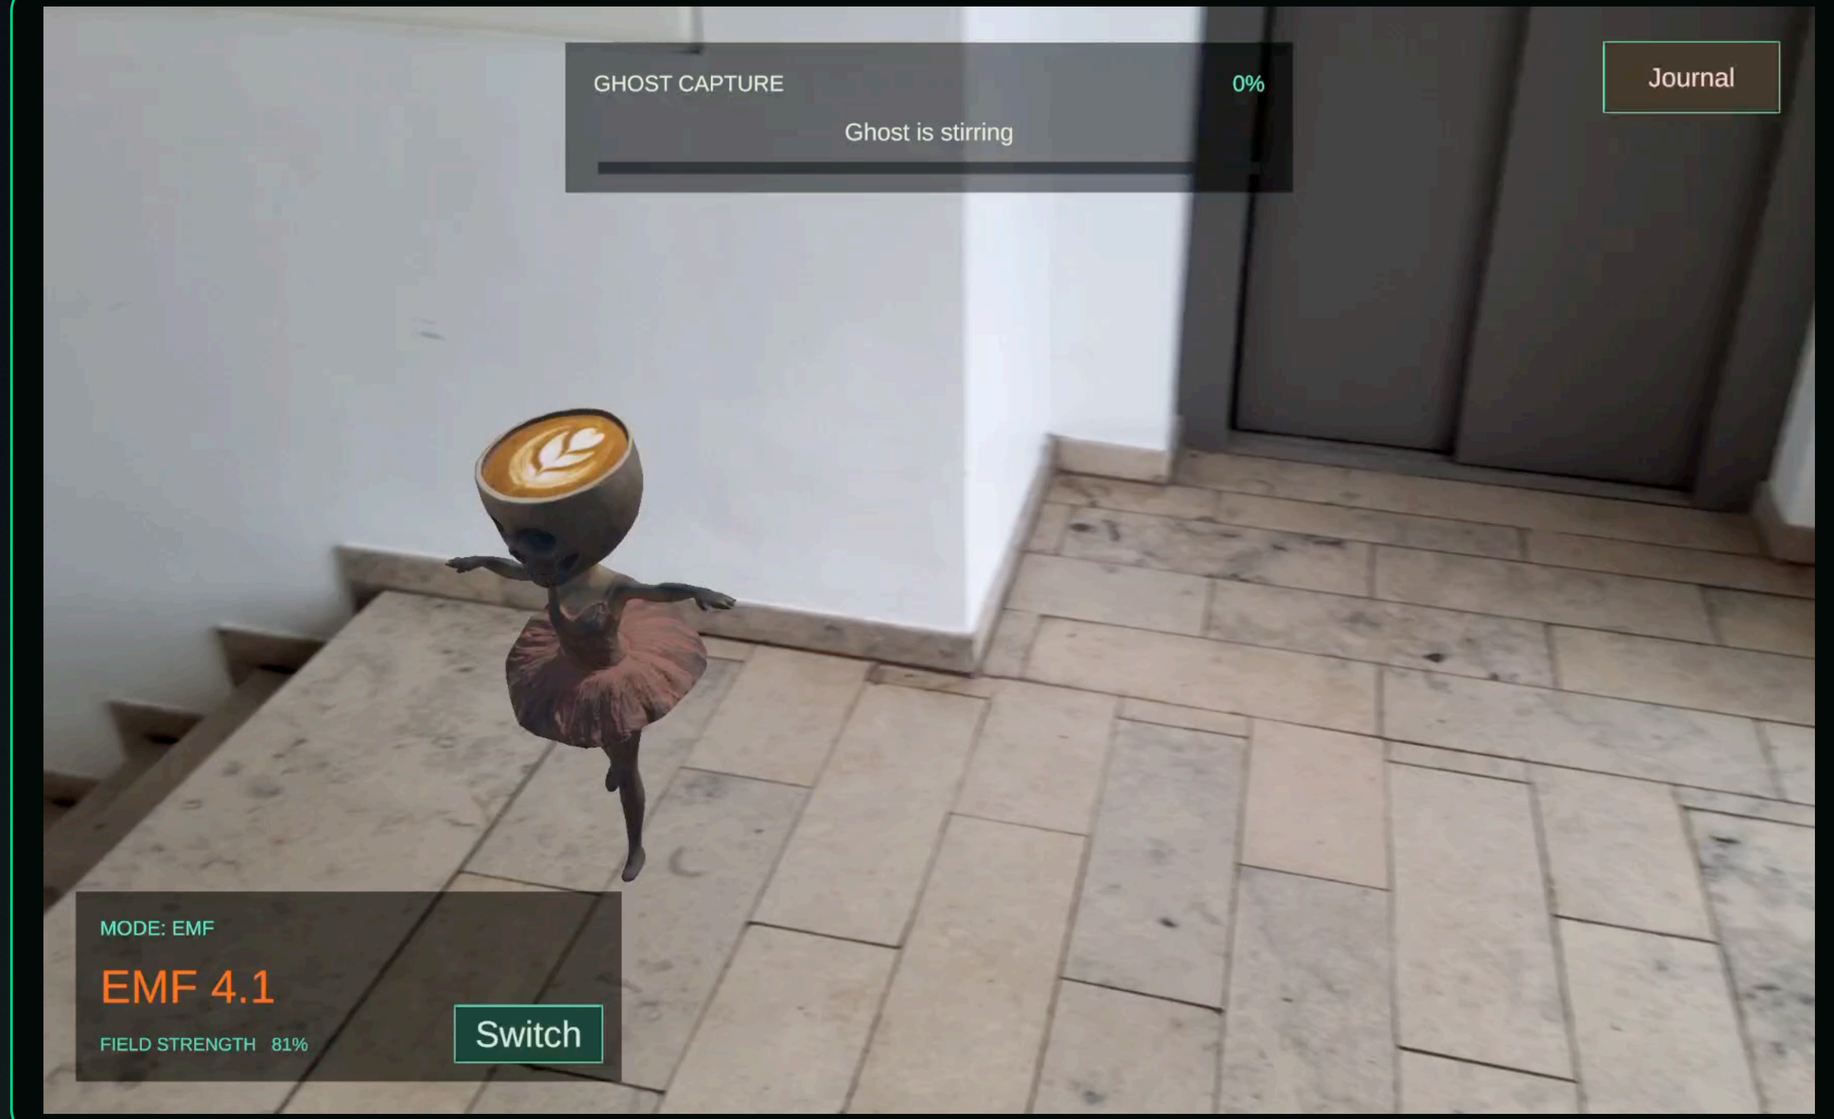
Static Ghost

Mimic

~~Fast Ghost~~

Submit

4 Capture the ghost



5 Get your result

Acceptance Criteria

Selection & Manipulation

Raycasting for capture, physical placement of AR Markers, Live Feedback

Movement

Continuous 6-DoF walking: The real-world is the play space

Wayfinding

Visual guiding to where the ghost is hiding via anchored ghost-evidence traces + spatial audio cues

JENNIFER WAGNER · SIMON WINTER · GYURI LEE · FANGXING LIU

Thank you for listening!
